## **Viaggio su Marte: come creare un corso E-learning interattivo con Rise – Prima parte**

Vi presentiamo tre articoli tratti dall'originale di Tom Kuhlmann su un modello interattivo creato da Tom con Rise, uno dei programmi della suite di Articulate 360. Enjoy! Ho creato un corso demo in Rise per un workshop. Uno dei miei obiettivi con la demo è stato quello di mostrare diversi modi per aggiungere contenuti e [...]

# Un processo di Review tutto nuovo

The screenshot shows a course review interface for "The Clean Water Act" (Version 3). The main content area displays a slide titled "Introduction to BMPs" with a background image of a construction site. The slide text reads: "In this section of the course, we'll review common best management practices for temporary soil stabilization and tracking control. We'll look at some common approaches such as hydroseeding, geotextiles, silt fences, and sandbag barriers." The interface includes a "REVIEW" button, a "FEEDBACK" button with a red notification badge, and a "SHARE" button. A comment section on the right contains several user comments and replies.

**The Clean Water Act**  
Version 3

**Introduction to BMPs**

In this section of the course, we'll review common best management practices for temporary soil stabilization and tracking control. We'll look at some common approaches such as hydroseeding, geotextiles, silt fences, and sandbag barriers.

**Anthony Smith** 45m  
Carolyn, the narration script for this slide has an acronym with the letters SWPPP. Should the narrator pronounce each individual letter, or simply pronounce it as "swip".

**Carolyn Zhang** 1d  
Anthony, please have the narrator pronounce it as "swip".

Reply...

**Carolyn Zhang** 2h  
Anthony, the image on this slide is showing a grid product. I like it, but I think an image of hydraulic mulch being applied along completed road construction would be better here.

**Anthony Smith** 15m  
Not a problem. I think we've got some imagery from our field shoot last week.
